

# HARDMAXX

## CARBIDE

# DRILLING PRODUCTS

PRECISION. PERFORMANCE. DURABILITY.

## Engineered for Maximum Performance

Hardmaxx Drilling Tools are built to deliver superior accuracy, excellent chip evacuation, and extended tool life across a wide range of materials and machining conditions.

### HIGH PRECISION

Ensures accurate hole making and consistent performance

### EXCELLENT DURABILITY

High-strength body and insert for longer tool life

### EFFICIENT CHIP EVACUATION

Optimized flute design for smooth and effective chip removal

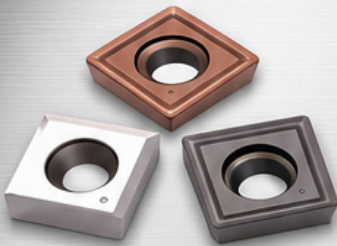

### WIDE APPLICATION

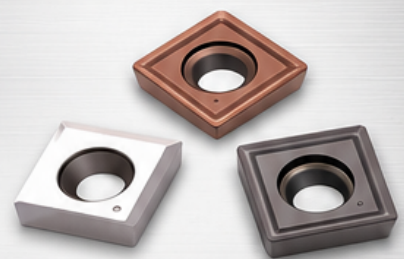

Suitable for various materials and industrial applications

## INSERT GRADES FOR DRILLING

For Steel, Cast-Iron, Stainless Steel,  
Super Alloys  
**HC335, and HC730U**

## FEATURES & BENEFITS

### HIGH PRECISION

Advanced cutting geometry ensures accurate hole making and tight tolerances.

### EXCELLENT DURABILITY

Tough substrate and wear-resistant coating provide longer tool life and reduced downtime.

### EFFICIENT CHIP EVACUATION

Optimized flute design ensures smooth chip flow and improved machining efficiency.

### WIDE APPLICATION

Ideal for drilling in Steel, Cast-Iron, Stainless Steel, and Super Alloys.

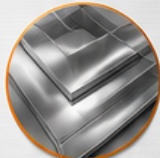

## IDEAL FOR

STEEL

CAST-IRON

STAINLESS STEEL

SUPER ALLOYS

GENERAL  
ENGINEERING

**BUILT FOR  
PERFORMANCE.  
MADE TO LAST.**
